WANTS THROUGH RATE TO DULUTH

Hon. W. R. Motherwell Endeavoring to Arrange With C.P.R.

ALSO LOOKING TO OTHER RAILWAYS

Much Grain In Danger Owing To The Lack of Cars.

WINNIPEG, Jan. 4.—Hon. W. R. Motherwell minister of agriculture for Saskatchewan, was in conference with G. J. Berry, W. H. Langford and F. G. McLean, members of the C.P.R. trying to get a through rate on grain from his province to Duluth similar to that existing between Manitoba and Ontario.

His government is trying to get similar rates from other railways as well as from the C.P.R. A bill has been seen on the subject and put it up to the Canadian Parliament.

Speaking of the increased protection of grain, Mr. Berry said: "Last year, the grain was so great as to be very hopeful.

"This year, however, the grain was so great as to be very hopeful.

He gave credit to the railroads for what they have done, but said that the price was relatively worse than the year before, whereas there was so much grain in danger of being lost that it was time to move to another crop.

RETURNING OFFICER ON TRIAL

Evidence Being Taken Against Albert Gingras in Maisonneuve Division of Montreal.

In the presence of Allard Beaubien, returning officer in Maisonneuve division, on the charge of attempting to妨害选民投票, he was convicted by fastidious account was continued this afternoon before Judge Lacombe.

Mr. Gingras, 40, was charged with alleged overcharges.

Judge Lacombe, who had been paid \$2,000 by Mr. Gingras, said he had signed an account produced for his poll. Albert Lacombe, 40, of St. Paul, Minn., was charged with a count of 12 for a contable. Henri St. George, Poll 1, gave similar testimony.

The auditor general's office said that suspicion had been cast upon him by the fact that charges against him were presented by the same handwriting as those of Mr. Gingras had been entered in the same handwriting as those of Mr. Gingras.

Mr. Gingras' defense was that he was thorough, but impossible.

He also testified that the fact that \$2,000 was given to him by Mr. Gingras for payment of deputies and rentals while the accounts received by the auditor general were much less than the amount advanced had aroused suspicion and led to investigation.

MYSTERIOUS MURDERS

Shots Are Heard, Blood and Patches of Hair Found in Room, But No Body.

Edmonton, Jan. 4.—A mysterious double murder is believed to have occurred on the Waipaho reserve which lies along the mouth of the Bow River. The two victims are believed to be two Indians, Charles Nahdee and Hiriam Johns. The story is that the Indians were shot and killed while leaving from Nahdee's house. Blood was found on the floor in the windows and door. No man or woman was living in the house and no bodies could be seen.

The only motive for the killing of the two Indians is believed to be because of the money which they had been advanced to them by their employer.

Montreal Hospital's SENSATIONAL CASE

Young Girl Sixteen Years Old, Study, Ask for Magistrate, Saying She Is Dying—Story She Told Leads To Arrest of Physician.

Montreal, Jan. 4.—Asking for a physician whom she could see every day, a patient in the Western hospital caused a sensation in that institution today.

The woman is Miss Emily Thompson, a domestic. The woman was brought to the hospital by her employer.

The physician who saw her said that she felt that she was dying and asked for a magistrate.

Chef Carpenter at once sought Judge Leet, and the latter, accompanied by J. J. Loomis, police magistrate, went to the hospital accompanied by the detective.

Following the story told by the woman, detectives were placed at work and early this afternoon an arrest was made. The man arrested was Dr. Georges Lourier. The charge on which he was arrested is that he performed an illegal operation on Miss Thompson.

Dr. Georges Lourier is but 16 years old and her mother is dead.

A second arrest was made after the physician who is accused of having counseled the girl to go to Dr. Lourier.

POOD WINNIPIN:

After Unprecedented Cold Weather Strong Wind Adds to Discomfort.

WINNIPEG, Jan. 4.—After ten days of unbroken cold weather during which period the thermometer has almost continually been hovering around zero, this city experienced further discomfort today when a very high wind sprang up. During the day the mercury remained round about 20 below zero, but the temperature has since been reported although no thermometers have been able to give accurate figures.

Calgary's New City Clerk.

Calgary, Jan. 4.—By a casting vote of the council, the new city chair at the special meeting of the council this morning, H. Miller, Winnipeg, was elected city clerk. This has caused considerable discussion in the council, some of the aldermen thinking more of the qualifications of the new city clerk than the commissioners and several aldermen saw the necessity of having a

deputy chief technical education.

Technical Education for Resita.

Bogus, Jan. 4.—At a meeting of the High school board tonight the chairman, Major McLean, intimated that the school board will give a charter to the city to view the building of a second High School in the city which will be devoted chiefly to technical education.

RUSSIANS EXECUTE MANY Town of Tiflis in Persia Now in Hands of Russian General.

Tiflis, Jan. 4.—The hanging of 120 of the Pashas were hanged last night and their bodies displayed on the gallows. The last arrests are now made, and several hundred Pashas and nationalists have been blown up in the hands of the Persians who will become the masters of the city. Tiflis is controlled by the government who is quartered in the Governor's palace.

Linen's Captain Died at Sea.

The Allan Line, Jan. 4.—The Allan Liner, "Empress of Britain," left with her third half month out of port under the command of John Henderson, who died on Sunday, while the ship was en route to Canada. Captain Henderson was taken ill with pneumonia when the vessel was cut a day out of the port of Liverpool and sank until Sunday, Dec. 29, when she reached.

"BIG INTERESTS" ARE AT WORK IN OTTAWA

St. Maggots Wait Upon Border Government Asking for Renewal of the Steel Industries' Convinced That There Will be More in Duty.

Ottawa, Jan. 4.—The government was waited on again today by representatives of the big steel interests who again make a request that the boundaries of the Hill lines be extended.

The result of the interview was

that it is generally believed that nothing more will be done in this matter until the steel industry has been required into the tariff committee.

When in Ottawa a short time ago, the steel interests called a meeting to discuss the possibility of getting a line from Port Arthur to Winnipeg, had already been selected. More of this will start as soon as the plan is fully matured.

Athlete Latituded.

Toronto, Jan. 4.—Gerald Lemire, ex-police constable, and noted as being one of the most efficient officers here this morning, found not guilty of the charge of killing Wm. H. Winter, a clerk in a store at the corner of Church and Queen streets and at 10:30 p.m. yesterday evening a couple of weeks ago. Magistrate Denison gave the accused the benefit of all old bounds.

COMMISSION'S FINDING

Board Approved by Roblin Government Submit Report to His Excellency.

WINNIPEG, Jan. 4.—The commission which inquired into the surrender of the Royal Canadian Mounted Police to the Germans, has submitted its report to the government.

It is the opinion of the commission that the men who surrendered to the Germans were not traitors.

The commission also declared that all the necessary statutory formalities and requirements for the carrying out of the act of treason were observed.

The enquiry was the result of a petition to Premier Roblin, February 1, 1917, by the members of the band of St. Peter's band of Indians, who made complaint of the methods used by the Germans in their treatment of the men who surrendered to the Germans.

Mr. Gingras, who had been entered in the same handwriting as those of Mr. Gingras, was examined.

It was thought that the fact that \$2,000 was given to him by Mr. Gingras for payment of deputies and rentals while the accounts received by the auditor general were much less than the amount advanced had aroused suspicion and led to investigation.

A&G.W. DISALLOWANCE APPLICATION IS NOW BEFORE THE CABINET

Federal Ministers Listen to Argu-
ments in the Case This
Morning.

Premier Sifton Looks
TO PROVINCES, INTERESTS,

Bondholders, Bank and Pro-
moter Court All Represented
By Counsel.

Ottawa, Jan. 4.—The government today is hearing the argument in the application for the disallowance of the act of the Alberta legislature, under which \$1,000,000 of the \$10,000,000 million dollar loan on deposit in connection with the Alberta and Great Western railway was taken.

At today's hearing the bondholders were represented by Eugene Lafleur, K.C., who said that the sum of \$1,000,000 was placed on deposit, if not more, by the Alberta legislature.

K. C. J. H. Mow, K.C., appeared for the railway company and W. R. Chapman, K.C., for the province. Premier Sifton and G. A. Mason, K.C., are here for the province of Alberta.

It will be remembered that the contract of the Rutherford government with the Alberta and Great Western was signed in 1908, before the formation of the provincial cabinet and the subsequent deposition of Premier Robt. Borden. The railway had cancelled the contract with the railway company, and put through an act of the legislature, which at that point became part of the provincial revenue.

The appeal to the Dominion government to disallow the Alberta act is based on the contention that the legislation interferes with the autonomy of the bondholders.

The Alberta government claims that the original contract was not in the public interest, that the company defaulted in payment of its taxes, and that the amount of compensation subsequently paid by the provinces and that the act of the legislature which was passed to meet the original contract was for the railway from Edmonton to Fort Macleod.

The railway has the assets of the company and the money deposited as the proceeds of the bonds to its credit, so the case will proceed.

The appeal was heard to day by the minister of justice, Premier Borden and his counsellors, Hazel, Carter, Putnam and Cochran.

Report Officially Denied.

Ontario, Jan. 5.—After attending the annual report which appeared in a number of papers to-day to consult the British Admiralty while in England regarding the safety of Canadian shipping, the Government, was given today at the Foreign Office, London, the following statement was handed to the Press: "There is no truth whatever in the statement that the Canadian Government has sent a cablegram to the Government of France."

Mr. Acland states that compensation for injuries to workmen and industrial accidents were the principal subjects taken up at the convention.

After the meeting, the delegation to the New York chapter of the American Economic Association, the American Sociological Society, and American Economic association.

Zero Weather and Deep Snow Hold the Western and Northwestern States in Their Grip.

Minneapolis, Minn., Jan. 4.—With damage attributable to cold in Western Kansas already at high figure, reports to the western bureau today showed a still further drop there since yesterday. At Dodge City, Kan., where the snow was 10 inches deep and deep snow known in many years has caused great loss in live stock, frozen or starved to death on the ranges. West of Great Bend, Kan., the snow was 12 inches deep and the roads were blocked for more than a week and isolated towns are crying for aid. Difficulty has been experienced in keeping the through railway line open. The temperature at Cheyenne, Wyo., was 15 degrees lower than yesterday, 12 degrees being registered at Oklahoma City and at Fort Worth. A drop was shown in Nebraska and the snow was 10 inches deep. Two below at Omaha, and eighteen below in Minneapolis.

SHAW IN HOT DEBATE WITH G. K. CHESTERTON

"A Democrat Who Is Not Also a Socialist Is Not a Gentleman" (And 4 Gentlemen Want to Be a Man With Honor)

London, Jan. 3.—A public battle of words between two of the most prominent men in Parliament was fought in the Memorial Hall the other night. The combatants were Bernard Shaw and G. K. Chesterton, who between them two made a sharp exchange of words. The opposite geniuses could hardly have been brought together. Their subject was the question of whether a Fabian society and friends of socialism, who are not also Socialists, are gentlemen. Shaw was the spokesman for the socialists, and Chesterton for the anti-socialists.

Two questions were discussed:

1. Whether a man who is not a Socialist is a gentleman? 2. And 4 gentlemen want to be a man with honor.

A separate debate for the northern part of the division of Calgary, and another for the southern part, will be held to constitute as soon as an enquiry has been made for the bishop's stipend.

The maximum stipend for the diocese of Alberta is \$14,000.

This assurance was given by Archdeacon Gray at the meeting of the Diocesan Council at All Saints' Schoolroom on Tuesday evening, at which all the Anglican bishops in the city and their wives were present.

Two questions were discussed, that relating to the proposed diocese of Edmonton. The boundaries of the proposed diocese will be announced next October, mission stations will be established from Bishop's Hill, which will be inaugurated in 1913.

The question of the stipend of all of these preachers have not yet been decided.

A meeting in the church hall of the diocese was held in the Mission House, Kennedy street, at two o'clock Tuesday afternoon. Rev. W. V. Bell, local rector, was in the chair.

The meeting dealt only with routine matters.

REVILLON BROS. SELL SECOND ST. PROPERTY

NORTHERN INDUSTRIAL COMPANY, LIMITED,

TWO STOREY VEHICLE WORKSHOP
STANDS—REVILLON & CO.
Kingsway and Avenue

The biggest deal of the year in Edmonton was closed today when the Northern Industrial Company, Limited, sold its Kingsway workshop to Mr. Revillon & Co. for \$10,000.

Mr. Chesterton quarreled with Shaw's definition of "gentleman," and said that sailor was the opposite of all that was good.

As for the equal division of property? "I don't care what I do," he said. "I have meant that the infant in me would be born in a clean grown man's world. He compared Socialism to a woman who wanted to have a family of having legs of our own. We live in a world where we are continually distributed—where legs are each morning which had to be given back.

In the recent railway strike which took place in Canada, he asked, "What was against it?" It was "not the condition boards"—but the fact that workers provide under Socialism. They were not provided for.

Mr. Shaw sprang to his feet. He proceeded instantly to the remark that it was a baby could be presented today with the right to live.

Mr. Chesterton retorted: "Your attitude was that of Nabal, who answered David when he said, 'Shall not the Lord desire that the state should absorb a certain portion of the earth?'"

As to the more important point, not against the constitution board, but against the conciliation board, he said, "I am not Socialistic enough.

Mr. Chesterton concluded that the peasant proprietor was stimulated by owning his bit of land, and that the peasant proprietor's son, the son of the peasant's wife—who had no fields and no money—would be stimulated to work harder.

Mr. Chesterton's attitude was that of Nabal, who answered David when he said, "Shall not the Lord desire that the state should absorb a certain portion of the earth?"

So the debate went to and fro.

Mr. Chesterton closed with an appeal on the "universal offer" with "God over us."

SCHEFKEK PASHA IS REPORTED TO HAVE BEEN ASSASSINATED

Former Minister of War in Young Turkey Cabinet Reported Killed By Assassins

RISING IN CONSTANTINOPLE IS ALSO REPORTED TODAY.

Neither Rumor Has Been Officially Confirmed by Despatches Direct From Capital.

LONDON, Jan. 4.—Despatches reach here to-day with word of the assassination of Mahomed Schefkek Pasha, the former Turkish minister of war and commander of the constitutional army, who was captured after the surrender of Abdul Hamid. These are rumors also of a rising in Constantinople, but the English press says that from that city tonight make no mention of such occurrences in the capital.

HODIEKA, ARABIA, Jan. 4.—The Italian cruiser "Giovanni da Palestrina," which has been on the Indian ocean, is now in the Red sea on the lookout for vessels carrying Turkish troops to Egypt. The Italian naval force, which yesterday sheltered a Turkish military encampment at Djibana, where a number of ships were reported to be en route for Constantinople, has now left the Italian side although the Turks required to the bombardment with field guns.

Turkey to Sue for Peace.

London, Jan. 4.—The cabinet crisis in Turkey has led to the removal of the rumors that the Turkish parliament is to be dissolved as a preliminary to the peace negotiations. It is said, however, that there is no confirmation of this at the present time. On the other hand Italy is preparing to make a final move to secure the reassembling of the Italian parliament which has been postponed, which would dash all hope of an early and peaceful prospect of peace. The despatches received today from the seat of war indicate quiet conditions around Tripoli.

Egypt to Enforce Neutrality.

London, Jan. 4.—In order to prevent the possibility of a collision between an indemnity, the Egyptian government is taking strong measures to enforce strict neutrality. It has prohibited the smuggling of Turkish arms and ammunition into Tripoli, ports have been closed along the coast road to Alexandria. The western land frontier will be watched and patrols have been taken along the Suez Canal.

LONG CLAIMED BY INDIANS.

Land Finally Awarded to the Subjunctive Order.

Montreal, Jan. 4.—A suit, the records of which date back to 1717, when Louis XIV was endeavoring to obtain the title of King of New France, came to an end in the Court of King's Bench today, when Justice J. C. Ross, president of the court, declared the seminary of St. Sulpice, of Montreal, owners of a large tract of land in the eastern townships, the Lake of Two Mountains, and the claim of the Iroquois and Algonquins Indians in the region was rejected.

The judgment held that the seminary had agreed to give the Indians spiritual care in return for the land, and had carried out their agreement, though as the majority of the Indians are now Protestant, the Catholic church had been given preference for the purpose.

The applicants, Angus Corriveau et al., claimed that the Iroquois and Algonquins residing in the Seigniory of the Lakes of Two Mountains, claimed that they were the original owners of the seigniory, or that they were the owners of the "common" lands and that last summer the Indians had signed a tract for them. The action was taken by the three clerics under the authority of the seminary, who demanded the right and interest of the Indians in the lands.

The settlers, who held a tract of land on the east bank of the Lake of Two Mountains, having a frontage of nine miles, and extending back a distance of nine miles. The Oka band of Indians, now residing on the seigniory, who had been interested in the Indians who, in the year 1717 and for many years prior thereto occupied a tract of land on the shores of the Monte Christo, the Sault-au-Récollet, and who, shortly after 1717, moved to the lands around the seigniory of the Indians, were enjoying the same as heretofore.

The Indians stated that the last allusion to the Indians in the case was made in 1717, and in common with all the members of the band for the cutting of firewood, pasturing of cattle, and the like, had been granted to them the ownership of the whole, and tends to establish the fact that the Indians had a right to the land, and that the Indians were the original owners of the land.

This modern Monte Christo spent the last summer in the winter competing with the Indians for the right to go to a territory with a radius of six miles of the Yukon capital.

NOTED "PUNCH" ARTIST DEAD.

London, Jan. 4.—Mr. G. H. Jalland, who was well known in London, and whose sketches have been regularly published in "Punch" and having sporting journals for many years did not die suddenly, as was reported. He resided at Hornsall, was 44 years of age, the son of Dr. Jalland, of Birmingham, and was a member of the Royal Society of Watercolorists, and had been for two weeks ill with an internal complaint.

Fire in Hudson Lumber Yard.

Regina, Sask. Jan. 4.—At two o'clock this morning fire broke out in the lumber yard of the Hudson's Bay Company. The flames had already a firm hold when the alarm was given, and by the time the firemen arrived the building was assumed dangerous proportions.

LOCKOUT EXTENDS TO OTHER MILLS.

Manchester, Jan. 4.—The lockout of the weavers and spinners of Lancashire, which began December 20, has been extended to several mills at Bolton and elsewhere. This strike, which began on Dec. 20, here today between Sir George Askwith, the noted strike arranger, and his employees, lasted for six hours. No settlement was reached, and the strike was adjourned until tomorrow morning.

THE COST OF LIVING STILL ON INCREASE

Labour Department's Index of Prices for November—Wheat and Slightly Lower—Breadwheats and Potato Producing Up

Ottawa, Jan. 4.—The cost of living throughout the country, as measured by the department of labour, has risen considerably during the past year. This interesting fact to the consumers of Canada is indicated by statistics just gathered by the labour department. The department's index number for November, 1911, was 112.8 for November, as compared with 113.5 in the preceding month, and 112.1 in November, 1910, and 111.7 in November, 1909. These numbers, it will be understood, are percentages in each case during the decade 1899-1909, the period selected by the department as being the most representative of the investigation into wholesale prices. Over 230 articles carefully selected by the department show that the Canadian production and consumption in all the provinces are included in the index.

"It will be seen that wholesale prices as a whole are on the increase, and that the increase in the cost of living is considerably higher than at the present time. The chief increases during the past year have occurred in grain and foodstuffs, miscellaneous materials, meat, and clothing, while the cost of meat, clothing, and household goods has increased more than the cost of foodstuffs.

MARMERS WIN

In a rough and tumble match filled with cross-checking, hacking and tripping, the Martimers defeated the Eskimos 4 to 3 last night. The game was so hot that the referee stopped it at Stratford, where the game was suspended for a few moments. Fast back-checking kept the rumpus on the ice, and the Blueshirts failed to register a single tally, while the Eskimos scored four goals. The second half belonged to the Martimers, who were able to stop the pace set by Sutherland four times.

The Martimers had a big advantage in weight, average weight of 180 pounds, while the Blueshirts weighed only 165 pounds. The Y. lost the game in the last few minutes of play. The Martimers succeeded in winning an advantage of one goal over the Eskimos, and the Y. evened up McGinnan scoring two winning goals two minutes before time.

The Y.M.C.A. was great tonight, and the Association beat the Eskimos 4 to 2. In the absence of Carmichael, who, while on the ice, pulled his leg, he was seen to leave the ice, however, with a broken skate, and the Blueshirts were unable to score. See—Clarkson, who started on the ice and had the Y. in trouble, was seen to leave the ice, but had got at the world a draw. See—Clarkson, who handled it in an excellent manner. Although he has coached the Y.M.C.A. for many years, he did not leave the ice.

Carmichael and Steel played the best games for the Y., while 13 goals were scored in the first period. Joint played a fairly good game, but the Blueshirts failed to score in the second half. In the second half, the Blueshirts won.

McGinnan and Wright were the only Martimers who shone. McDonald and McLean were the best players on the same as New Year's Day. Wright was the best player on the ice.

Carmichael and Steel were responsible for the Y.M.C.A.'s victory. There was very little combination play by either team, although nearly every man tried to take care of his own business. They did the first half, they would have to check heavily and fearfully when the second half began.

The Eskimos were the fastest and prettiest to watch that there was ever seen on the ice. In the first half, the Eskimos had a hard time, but in the second half, the Eskimos scored three goals, while the Martimers three of the goals going to McGinnan.

AROUND THE CITY

Dr. F. J. Pritchett, physician, to the department of neglected cases, has been made a member of the group about six weeks.

His first was made shortly after noon yesterday by Detective Coleman of L. Montgomery, a strathcona who is a constable in the force. It is alleged that Montgomery secured roads at a strathcona hardware store for his personal use. He will appear before Magistrate Cowan this morning to answer to the charge.

Sad news was received yesterday afternoon by Sergeant John Wright of the city police force, that his son, George, had died. That sergeant Wright's aged father was dead at Rapid City, Manitoba, Sunday evening. He had come from Rapid City to attend the funeral.

The coming spring will take one of the first questions with will be taken up by the Dominion Government in Alberta. Will the fence and impounding of other buffalo be to be developed, and other animals have to be sent to market? It will be necessary to build some sheds and pens and for the living of those who will stay.

Starting with the New Year a number of landowners will receive rents in some cases occupants of buildings found to be in a dilapidated condition, removed last year. James Barber, proprietor of the Barber Inn, paid \$100 a month for a room and New Year's was not even paid. Mr. Barber immediately vacated the place and now located in the Mozer-Ryder block.

DEALER IN REAL ESTATE DEALS

NEEDED A CALENDAR

An interesting calendar was issued in the police station yesterday afternoon between the preceding magistrate and a witness giving evidence on his own behalf. The magistrate, however, would not accept the witness's statement, to clear matters. Inquest was adjourned until further notice. No record being forthcoming, witness was further asked if he knew what money the magistrate had given him. The magistrate refused to say, but admitted he had given him a sum, and looked puzzeled.

"Do you know," asked the magistrate, "what the week Easter Sunday happens on?"

"Well," replied witness, "I could tell you if I had known." "Suppose I told you it was on a Thursday last year, what day would it be this year?"

"If it happened on Thursday last year it would be Friday this year. It would be Saturday next year."

"Do you think then," asked his worship, "that Easter Sunday could happen on a Wednesday?"

"Yes, if it could happen on a Thursday," replied the witness, who had thus turned apparently recovered his thinking powers.

At a subsequent stage, when the case had been decided, the magistrate again asked the witness if he had not been in his senses. The witness, however, retorted that he (the magistrate) might have had some "compunctions" but had not had such a good time at Christmas.

"Well," retorted the magistrate, "if you had not been in your senses, it was at my own expense, and nobody suffered but me. And if I was brought into this court I would say me!"

CHINESE HAIR FOR "RARE"

Large shipments come to Canada As Results of Ominous Discovery

Vancouver, Jan. 4.—The Well Line, Edward Orton, Captain Phishay, who arrived today from ports in the Orient, said that he had been unable to get any sort of human hair which at one time adorned the heads of Chinese.

These hairs of hair figure in nearly every cargo brought here from China and are used in making wigs. The demand for them is apparently on the increase.

The question of communication with the mainland has been one of the most important topics of discussion in the annals of the Canadian government.

The announcement that the federal government has pledged to a car ferry between the Island and the mainland has met with general satisfaction, but an effort was made to cast doubt upon the statement by pointing to the fact that the announcement and also upon the meaning of the words in which it was
